Mike Ryan - PT, ATC, CES, PES Sports Medicine  
Analyst, NBC Sports

Available in  
single-use packets.

## HOW WE COMPARE

### Paraben FREE

Endocrine disrupting chemicals linked to reproductive issues and cancer.

### Polysorbate 60 FREE

Health concerns related to Polysorbates include cancer, developmental toxicity and skin irritation.

### Phenoxyethanol FREE

Preservative found in skin products linked to irritation & allergic reactions. Proven to cause skin, eye & lung irritation.

### Disodium EDTA FREE

Skin irritant that can assist in the absorption of other chemicals into the skin.

### Methylisothiazolinone FREE

Preservative found in many skincare products linked to lung toxicity, neurotoxicity and allergic reactions.

### DMDM hydantoin FREE

Chemical preservative that is a known formaldehyde releaser.

### Iodopropynyl Butylcarbamate FREE

Preservative used in the paint industry. Human toxin. Causes skin irritations such as contact dermatitis.

### Sodium Laurel Sulfate FREE

Skin irritant found in many household cleaning products.

### Mineral Oil FREE

Mineral Oil is a by-product of refining crude oil used to make gasoline and other petroleum products. It can be a skin irritant and clog pores.
