

HGPro

MULTI-INSTRUMENT

Protect Your Hands.
Extend Your Career.

www.hawkgrips.com

Made with Pride in the USA

The most versatile instrument in our industry.

If you only buy one IASTM* tool, this is the one you need. The HGPro is an extremely high-quality instrument—you'll know it the first time you hold it in your hand.

It features seven different treatment edges. In fact, the HGPro combines four of our most popular tools into this one convenient multi-instrument.

"Throughout my career I have used many tools, but the HGPro is by far the best multi-instrument IASTM tool available."

— Mike Voight, PT, DHS, OCS, SCS, ATC, CSCS, FAPTA

Includes:

- Protective carrying case
- HawkGrips emollient
- Instructional video
- Training manual

Four HawkGrips tools in one!

- Seven different precision-engineered treatment edges
- Ergonomically designed for clinician comfort
- Convex and concave treatment surfaces
- Single and double bevels
- Perfect for traveling
